week, which relieved many farmers of their extreme anxiety concerning their crops. We have not felt any uneasiness at the prospect for corn and potatoes this year on account of dry weather, for we have known these crops to turn out well when there had been no rain from May until August. We think there is much more to fear from bugs than from drouth; but there are always old croakers who find fault with Providence for everything they have or everything they don't have; and if there happens to be a week or two of dry weather, they cry "Drouth" and "Famine;" while on the other hand, if there are good soaking rains for two or three days at a time, they think "It will be too wet for crops this year.' "Everything will be drowned out,"-They never thank God for favors con. ferred, but continually growl and grumble at his providences. Cheer up, farmers ! There is no reason to fear famine or starvation in Kansas, soon.

OUR MAIL ARBANGEMENTS have been shamefully deranged this week. We would intimate that if there is not an improvement soon, somebody will hear such a buzzing as will induce the bejief that a hornet's nest is not "far about." The people will not submit to such a palpable outrage and violation of contract. We hope Chester Thomas, the mail agent for Kansas, will look into this matter immediately and see that the government and the rights of the people are not contemptuously trampled upon by unscrupulous mail contractors ...
